“**Make America Love Again**” is **America’s song**, a call for fairness, kindness and for justice rather than hatred and intolerance. At this point in history **ONE SONG CAN MAKE THE DIFFERENCE**. It can change and move hearts, like “The Star Spangled Banner” and “We Shall Overcome”. It is a song with a social conscience driven by the underlying belief that “**There is nothing wrong with America that cannot be cured by what is right with America**”.

During the last fractious election campaign The Woolfman, an accomplished producer and composer witnessed an interview with Spike Lee, who made the statement “Make America Love Again”. That night the song emerged from a dream in just a few moments. It is driven by the impulse to “Heal the Soul of America” rooted in Gospel Music – based on the feeling that “**the idea of America**” – can be a force for good.

Although The Woolfman is British, he is a member of the global community. What affects America affects everyone worldwide with key decisions to come in 2024 which will shape all our futures.

“This song can bring together people from all parts of the USA with different views and ideas who have a common love for their country and its constitution. Who believe that America is ultimately a force for good in the world and that where the US leads the world follows. Who believe that the US is the ultimate international guarantor of peace freedom and democracy. Who believe in love, tolerance and respect for all human beings no matter their gender race or beliefs. Who believe that we all have a right to live in safety from violence, to have food on our table, to feel safe and secure and to educate our children to be the best person and best citizen they can be”.

The Woolfman does not seek compensation and willingly licenses the song free of charge to the Democratic party for use during their election campaign and beyond.

Maybe it's time we embrace the simple gift of a song which can bring people together, open their hearts and bring a sense of humanity back to our lives.

We want to make America Love Again and to make America Laugh Again...with joy!
